Navigating growth with tenders, grants and consultancy

WHO ARE FCS?

We work with business, education and third sector organisations who:

- Want to win new business by tendering for work
- Know there are tenders or grants out there but don't know how to write a winning application
- Want to access available funding to help develop their organisation
- Don't have the time to spend writing a winning bid
- Want to spend more time working on their business not in their business
- Need pragmatic health and safety advice

We work with organisations from a range of sectors including Higher and Further Education, NHS Trusts, construction, manufacturing, marketing, professional services, charities and social enterprises.

In the short time we have been working with FCS Associates Ltd we have submitted three very strong applications for funding. They seemed to take no time at all to gain a very good understanding of our funding needs and have an extremely good insight into the right funders available to match those needs.

Tonya Kennedy,
The Children's Hospital Charity,
Sheffield

Our project has been very important, enabling us to reach our business growth plans and aspirations. We certainly made the right decision asking FCS to support us with our application. Their expertise in this area has been invaluable.

Gary Fletcher,
Chesterfield Cranes

BUSINESS COACHING

Many of the business owners we work with tell us they find themselves working in their business and not on their business. Here at FCS Associates you are able to access a wealth of experience and information to help you grow your business in a sustainable and manageable way.

The benefits of using the FCS Coaching and Mentoring Service are:

- It enables you to have an independent third-party expert eye on the organisation
- More confidence and improved performance
- 1-2-1 support: We tailor our advice to your organisation

I would recommend FCS to organisations that need a third party perspective on their business. They have provided us with useful insights, recommended simple yet effective new processes, supported me with my decision making and helped me grow and develop my business. Working with FCS has made a real difference to my business and has really helped us move forward.

Steve Naylor, Managing Director
Doordeals Ltd

HEALTH & SAFETY CONSULTANCY

Our Health and Safety package is especially designed for SMEs and includes:

- H & S Management Policies and Procedures
- Risk Assessment performance by a NEBOSH trained Health and Safety Consultant, safeguarding you against potential risks
- Pragmatic Health and Safety Consultancy Advice from a H & S Advisor who is an experienced business consultant

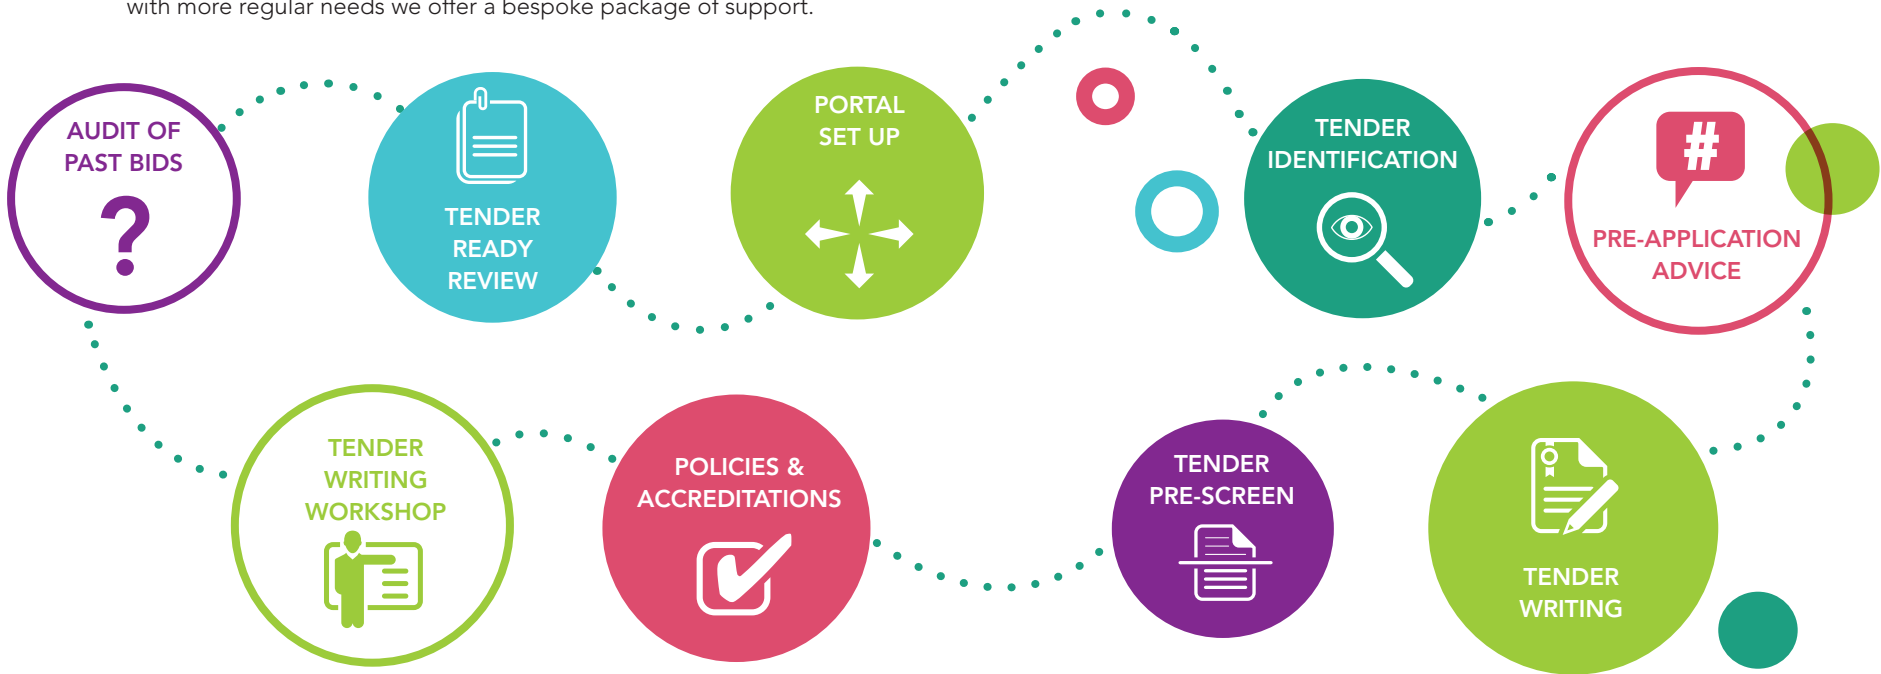

FCS supported us through our CHAS application. Their extensive knowledge in this area ensured the process was straight forward and most importantly successful. We would highly recommend FCS and we will use their services again in the future.

Adam Faver, Managing Director,
ATR Flooring

TENDERS

We have a wealth of experience when it comes to understanding the complex requirements of tender applications and what a winning application should look like. We can work on one-off applications or for those clients with more regular needs we offer a bespoke package of support.

GRANTS

We work with you to ensure that you are finding and winning all grants applicable to your organisation to help turn your project into a reality.
